

# SPICE UP YOUR DOG'S WALKS

## 5 EASY WAYS TO PUT SOME **WOW!** INTO YOUR WALKS

### GIVE YOUR DOG TAKE OUT

Taking your dog's lunch with you on a walk will give you a fun way to provide a meal. Find a spot without other dogs around and either hide or scatter the treats. You can do this as a structured activity with you involved or as a solo activity for your dog.

### GO ON AN ADVENTURE

Going on the same walk again and again is BORING. Add some spice to your dog's life and take them somewhere new to explore.

### SMIFF SNIFF SNIFF

Let your dog have the chance to sniff. ALOT. It's very fulfilling for them. Just going a short distance with plenty of sniff time will be both mentally tiring and calming, so you'll love it too!

### ROOM TO MOVE

Walking at our pace is not natural for our dogs. Allowing them to move more freely will provide them with a much more enjoyable experience. Using a long line will allow this while still keeping them safe.

### IT'S YOUR CHOICE

Give your dog the chance to make simple choices when it's safe to. Let them decide whether to go left or right at corners, or to stop and watch something of interest.
